AND

ENGINEER.

A WEEKLY REVIEW OF CURRENT PROGRESS IN
ELECTRICITY AND ITS PRACTICAL APPLICATIONS

VOLUME XLII.

FROM JULY 4 TO DECEMBER 26, 1903.

NEW YORK.
ELECTRICAL WORLD AND ENGINEER.

INDEX TO VOLUME XLII.

GENERAL ALPHABETICAL INDEX.

NOTE.—*Entries from the Digest of Current Electrical Literature are indicated by D. (Digest) and D. R. (Digest Reference). Illustrated articles are indicated by**

A

ACETYLENE, Generation of. By Morehead (D.) 774
——at St. Louis Exposition 348
Accumulator. (See Storage Battery)
Actinium and American radium 948
Aerial electric ladder experiments 62, 99
Agriculture, Electricity in. By Buderus (D.R.) 228
Air, atmospheric, Electrical conductivity of. By McLennan and Burton (D.) 114
——Compressed, in connection with electric cranes. By Jordan (D.) 730
——Radioactive emanation in. By Elster and Geitel (D.) 191
——Ionization in, at different temperatures and pressures. By Patterson (D.) 489
——Ionization of, by water. By Himstedt (D.) 76, (D.) 352
——Utilization of nitrogen of. By Frank (D. R.) 150
Air compressors driven by electricity. (D. R.) 772
——for mining, driven by electricity. (D.) 730
——with automatic starter, St. Louis Transit Co. (D. R.) 189
Airship, Gathmann 486
Alaska, Electricity in, 691
Alkali, caustic, and chlorine, Apparatus for production of. Larihar patent *389
Alkaline earths, Sulphides of. By Brochet and Ranson (D.) 150
Allegemeine Electricitäts Gesellschaft. High tension oil switch *197
Allis-Chalmers Co. Reynolds corliss steam engine *941
ALTERNATING CURRENTS:
Alternating currents. By Tell (D. R.) 650
——Application of single-phase, for traction and railway service. B. G. Lamme 1043
——circuits, Direct-current from. By Sterzel (D.) *773
——circuits, Power measurements on. By Williamson (D. R.) 401. Craighill (D.) 571. Ballard (D. R.) 775
——Electrolysis with. By Le Blanc (D.) 490
——machinery, Armature reaction in. By Thornton (D.) 568
——machinery, Management of. By Hanchett (D. R.) 447
——machines, Compensating and Compounding of. By Heyland (D.) *692. Meyer (D.) 771
——machines, Harmonics in. By Guery (D.) 306
——machines, Hunting of. By Hopkinson (D.) 350
——Measuring the form factor of. By Rose and Kuehns (D.) 1065
——Measuring frequency of very rapid. By Salomonson (D.) 1019
——Rectifying. Hambuechen method 62
——Transmission and distribution of single phase. By Monkhouse (D.) 147
——wave indicator operating by cathode rays, 54. By Harris J. Ryan (A. I. E. E. paper) 103
——wiring. By Poole (D.) 400
Alternators (See also Dynamos, Generators.)
——Armature reaction of. By Guilbert (D. R.) 772
——British (D. R.) 850
——Commercial design. By W. L. Waters (A. I. E. E. paper) 66
——Compensated and compounded. By Heyland, Flynn (D.) 811. Meyer, Latour (D.) *849
——Compound synchronous. By Kolben (D. R.) 1063
——Dick, Kerr & Co. types *937
——in parallel, Measurement of velocities of rotation of. By Sartori (D.) 613
——in parallel, Surging of. By Benischke (D. R.) 812
——in parallel, Working of. By Hopkinson (D.) 692. Rosenberg (D.) 771
——Testing large, under full-load conditions 709. By B. A. Behrend *715, *802, 886. W. L. Waters 873. Behrend 882
Aluminothermics, By Dr. Hans Goldschmidt 854, (D.) 888
Aluminum alloys, Conductivity of certain. By Wilson (D.) 649
——conductors for transmission lines. By Adams (D.) 489. Kershaw (D.) 613
——Electrodeposition upon. By Fischer (D. R.) 932
——Electrodeposition of, from aqueous solutions. By McDermott (D.) 975
——patent litigation 710
——and silicon from silicates of alumina. Homan patent 62
American Association for the Advancement of Science, Volume of proceedings 828
American Automatic Switch Co. Track switch *1021
American Diesel Engine Co. Oil engines 356
American Electrochemical Society, Local sections of, 765
——Niagara Falls convention 326, 424, 468, 486, 503, 518
American Institute of Electrical Engineers, branch meetings. By C. W. Rice (A. I. E. E. paper) 66
——Chicago branch executive committee new members 646
——December meeting 1036
——Financial status 544
——Niagara convention 4, 53, 66, 102, 136
——November meeting 880
——October meeting 714
——Philadelphia branch meeting 844, 1061
——President Arnold's address 563
——President Scott's address 70
——September meeting 546
American Institute of Mining Engineers, Meeting of, 680
American Railway Mechanical and Electrical Association, Saratoga convention 391
American Society of Mechanical Engineers, Meeting of, 969
American Society of Municipal Improvements, Meeting of, 752
American Stone Conduit Co. Stone pipe for underground conduits 196
American Street Railway Association, Saratoga convention 326, 367, 391, 437.
American Watchman's Time Detector Co. Time detector *533
Ammeter, Graphic recording. By A. H. Armstrong *721, 792
——and voltmeter, Atwater-Kent pocket *410
——and voltmeter. Kelvin & Jas. White Ltd. *194
Applied Device Co. Incandescent lamp adjuster *1021
Aqueous solutions, Electrodeposition of aluminum from. By McDermott (D.) 975
Arc, Electric. By Blondell (D. R.) 1063
——mercury, Discontinuous. By Kallir (D.) *614
ARC LAMPS:
——By Breslauer (D.) 885
——Alternative connection of triplex, in three-wire circuits. By Miram (D. R.) 112
——Bremer (D. R.) 350, (D. R.) 612
——Candle power tests of Welsbach burners *716
——enclosed, Mechanical details of. By Sleigh (D. R.) 25
——Flaming, 1034
——Hot-wire enclosed. By Tomlinson-Lee (D. R.) 398
——and mercury vapor, Intense light. By Hospitalier (D.) 772
——New system of, (D.) 306
——Sheffield, Eng. 901
Arc light, Intense. By Vogel (D.) 25
Arc Works, Chelmsford, Eng. 199
Armature coils, Calculation of apparent inductance of. By C. C. Hawkins *798, *835, *871, *913, *961
——coils, Universal forming machine for. By Robinson (D. R.) 308
——Cores, Factors which affect energy losses in 91, 102
——Dimensions of slots in direct-current. By Müller (D.) 1062
——reaction in alternating current machinery. By Thornton (D.) 568
——testing with a milli-voltmeter. By Cale Gough (D. R.) 612
Aromatic nitro bodies, Electrochemical reduction of. By Elbs and Stohr (D. R.) 150
Arsenic, Electrolytic estimation of minute quantities of. By Thorpe (D.) 732
Ash handling apparatus in Brooklyn *982
Associazione Elettrotecnica Italiana excursion to United States in 1904 221
Atonic theory 3. By Rutherford (D.) 26
Atmospheric electricity considered from the standpoint of the theory of electrons. By Ebert (D.) 450
——and terrestrial magnetism (D. R.) 570
Atwater-Kent Mfg. Wks. Pocket Ammeter *410
AUTOMOBILES:
——Applications of electricity to. By Crompton (D. R.) 148
——Chairs for St. Louis Exposition, Scott. *235, 263
——Combined gas engine and electrical equipment for, 261
——Edison storage battery, quick run between Boston and New York 726, 769
——Electrically heated handles. Fliess patent 929. By R. A. Fliess 1015
——Electricity in. By Bibolini (D. R.) 730
——in England 312
——Fischer, test run 620
——German law 727
——Jump spark plug. Hydra Battery Co. *78
——Present condition of building electric. By Loewy (D. R.) 351
——Sign for charging stations. Boston Edison Co. *405
——state laws 264
——Storage battery 707
——Storage battery for. Maxim patent 806
——Use of electric commercial 405
Azo compound, Reduction of. Buchner patent 303

B

BAKING OVEN, Electrically heated. By Boehm-Raffay (D. R.) 354
Balata, Notes on. By Terry (D. R.) 232
Banner Electric Co. Cut-out and floor box *856
Barr Mfg. Co. Telephone transmitter arm *891
Barron, Jas. S., & Co. Solid expanding sleeve *942
Basalt, Magnetism of. By Allan (D. R.) 1018
Bates Machine Co. Numbering machine for metals *780
Batteries. (See Primary, Storage.)
Battery tester. Electric Contract Co. *199
Bearings, Hobart dynamo and motor 780
Becker-Brainard Milling Mch. Co. Planer-type milling machine *493
Beer, Process of preserving. Crotte patent 185
Bissell, F., Co. Cable car for line men *236. Motors for standard machine tools *410. Theatre switch *533
Bleaching liquor. (See Hypochlorites)
Bleaching powder and caustic soda plant, Italian, (D.) 532
Blue-printing machine, Electric. By Jones (D. R.) 354
Blue prints, Electric (D. R.) 1063
Boat, Submarine, for sponge fishing in Carthage 446
——tests 846
Boiler cleaner, General Specialty *409
Boilers, Internal separators for steam. By Strohm (D. R.) 399
——tests 21
BOOK REVIEWS:
——The Alternating-Current Transformer. By F. G. Baum 571
——Annuaire pour L'An 1903. 354
——Atlante di Macchine e Caldaie. By Salvatore Dinaro 934
——British Standard Sections. Issued by Engineering Standards Committee 193
——Calendar of Invention and Discovery. By John Casson Wait 976
——Construction und Prüfung der Elektricitätzähler. By A. Konigswerther 1067
——Continuous-Current Dynamos and Motors and Their Control. By W. R. Kelsey 1066
——Correnti Electriche Alternate. By Attilio Marro 270
——Das Elektrische Kabel. By Dr. Phil C. Baur 452
——Das Elektrische Light und die Elektrische Heizung. By Dr. Alfred Ritter v Urbanitzky 491
——Descriptive Geometry. By Wm. S. Hall 492
——Die Berechnung Elektrischer Leitungsnetze. By Joseph Herzog and Clarence Feldmann 269
——Die Elektrochemie. Von H. Danneel 815
——Die Montage Elektrischer Licht und Kraftanlagen. By H. Pohl 934
——Die Strassenbahnen in dem Vereinigten Staaten von Americka. By Gustav Schimpff 888
——Die Telegraphie Ohne Draht. By Augusto Righi and Bernhard Dessau 491
——Dies: Their Construction and Use for the Modern Working of Sheet Metals. By Joseph V. Woodworth 151
——Einrichtungen von Elektrolytischen Laboratorien. By H. Nissenson 853
——Electric and Magnetic Circuits. By Ellis H. Crapper 452
——Electrical Engineering. By E. Rosenberg 310
——Electrical Engineering Measuring Instruments. By G. D. Aspinwall Parr 733
——Electrical Influence Machines. By John Gray 270
——Electrical Practice in Collieries. By Daniel Burns 270
——Electrical Problems. By Prof. Wm. L. Hooper 452
——Elektro-Metallurgie des Nickels. Von Dr. W. Borchers 452
——Elementare Vorlesungen über Telegraphie und Telephonie. By Dr. Richard Heilbrun 533, 888
——The Engineering and Electric Traction Pocket Book. By Philip Dawson 889
——Engineering Preliminaries for an Interurban Electric Railway. By Ernest Gonzenbach 888
——Experiments on the Flexure of Beams. By Albert E. Guy 193
——Experiments with Vacuum Tubes. By Sir David Salomons 269
——Handbook for Electrical Laboratory and Testing Room. By J. A. Fleming 975
——Hardening, Tempering, Annealing and Forging of Steel. By Joseph V. Woodworth 151
——India Rubber and Gutta Percha. By John Geddes McIntosh 310
——Induktionsmotoren. By B. A. Behrend 775
——Infortuni Sul Lavori. By E. Magrini 402
——Jahrbuch der Electrochemie. By Dr. W. N. Nernst, and Dr. W. Borchers 403
——Kalender für Elektrochemiker. By D. A. Neuberger 402

Book Reviews, continued.
——Koniglichen Technischen Hochschule zu Aachen. By Dr. Wilhelm Borchers 853
——Kurzes Lehrnbuch der Elektrotechnik. By Adolf Thomalen 491
——L'Année Electrique, Electrothéra pique et Radiographique. By Foveau de Courmelles 193
——La Telegraphic Sans Fil. By E. Guarini 1020
——La Traction Electrique. *By Paul Dupuy 402
——The Metallurgy of Zinc and Cadmium. By Walter Renton Ingalls 652
——Onde Hertziane e Telegrafo Senza Fili. By Oreste Murani 1066
——Opere Di Galielo Ferraris 571
——Photographic Lenses. By Conrad Beck and Herbert Andrews 193
——The Polytechnic Engineer 270
——The Practical Physics of the Modern Steam Boiler. By Frederick J. Rowan 853
——Pratique des Essais des Machines Electriques. By Emile Duquesne and Ulysse Rouvier 402
——Proceedings of the Tenth Annual Meeting of the Society for the Promotion of Engineering Education 77
——Public Lighting by Gas and Electricity. By W. T. Dibdin 451
——Reflections sur la Puissance Motrice du Feu et Sur les Machines Propres a Developper cette Piussance. By Sadi Carnot 402
——Schedule for Continuous-Current Dynamo Design. By Prof. S. P. Thompson 403
——Secondary Batteries 696
——Steam Power Plants. By Henry C. Meyer, Jr. 270
——Storage Battery Engineering. By Lamar Cyndon 232
——The Story of a Grain of Wheat. By W. C. Edgar 151
——Students' Guide to Submarine Cable Testing. By H. K. C. Fisher and J. C. H. Darby 652
——Telephony. Part IV. Construction of Aerial Lines. By A. V. Abbott 934
——Tools and Machines. By Charles Barnard 1020
——Treatise on Electromagnetic Phenomena. By Commander T. A. Lyons 451
——The Utility of an Academic or Classical Education. By R. T. Crane 115
——The Work of Wall Street. By Sereno S. Pratt 270
Booster, Storage battery system. Lyndon patent *304
Boring machine, Motor-driven horizontal (D.) 351
Boyle, Bro. Potamain's letter on, 647
Brain, Electrification of. By Leduc (D.) 402
Brake, Simple prony (D. R.) 448
Braking, Iron-clad magnets for. By Hellmund (D. R.) 614
Bridge, Electrically operated swing, at Sidney, N. S. W. 389
——plant, Pennsylvania Steel Co. (D.) 612
British Westinghouse Co. Large commutator *196. Electric tramway contract, Bath, Eng. 198. Mining locomotives 198
Bryan-Marsh Co. Incandescent lamps *408
Bullock Electric Mfg. Co. Isolated plant on Long Island *856
By-Products Paper Co. Niagara Falls plant 576

C

CABLE BRACKET FRAME, Gest *80
——conduits at Niagara 184
Cables, Capacity of. By Kath (D. R.) 1065
——Construction of. By J. Schmidt (D.) 814, (D. R.) 932
——Dielectric losses in high-tension. By Apt and Mauritius (D.) 851
——Locating faults in. By Northrup, Raymond-Barker (D. R.) 489
——Measurement of Capacity. By Fleming (D. R.) 695
Cable, Submarine: Alaska 263, 528, 600, 682
——Cabling news of Pope Leo's death 186
——Columbian trouble 188, 567, 609
——Control of Black Sea 349
——Damage at Holland Bay, Jamaica 304
——German Atlantic 769, 1060
——Navigation on cable-laying ships 261
——ownership 262
——Pacific Commercial, completion of first American 22, *60, 89. Extension 145
——plant. Roebling's Sons 1024
——Speedy deep sea laying 145
Cables, Telephone (see Telephone cables)
Cables, Underground: Electric cables for high-tension service. By H. W. Fisher (A. I. E. E. paper) 141
——Heating of. By Humann (D.) 352
——in Hoboken 22
Cadiot & Cie. High-tension cross-arm and insulator *79
Calcium, Production of metallic, by electrolysis (D.) 150
Calculator board. By Raymond-Barker (D.) 815
Camp, H. B., Co. Lake split tile *855
Canals: Boston construction. Boston Edison Co. 155
——Electric traction on. By Petit (D.) 886, 791
——Electricity on Erie 769, *795
——Electricity on Miami *804
——Recent improvements in engineering. By Fitz-Gibbon (D. R.) 230
——Rome, Italy 972
——Sault Ste Marie power 59
Canal rays: Deflection of the positive in the electromagnetic field. By Stark (D.) 400
——Energy of. By Leininger (D.) 400
Carbides, Determination of carbon in. By Fitzgerald and Loomis (D. R.) 353
Carbide works, Flums, Switz., Electrical equipment of. By Perkins (D.) 308
Carbon: cell. By Jone (D.) 932
——Determination of, in Carbides. By Fitzgerald and Loomis (D. R.) 353
——Electricity direct from. By Lorenz (D.) 932
——electrode and conductor. Acker patent 841
——electrodes. Hargraves, Stubbs and Kearsley patent 20
——electrodes in molten electrolytes. By Harden (D.) 308
——Production of chlorides of, in the electric furnace. Machalske patent 389, 766, 971
Carborundum as furnace lining. By Grempe (D.) 192
Carlisle & Finch Co. Searchlights *407
Carnegie Institute, Work of, 990
Carstarphen Electric Co. Large magnet for oculists *273
Case Mfg. Co. Controllers for cranes and steel mills*984
Castings, Lang copper *409
Cathode cell. Larihar patent *389
——cell, Mercury, for electrolysis of brine. G. & G. W. Bell process *441
——fall in helium. By Defregger (D. R.) 815
——Mercury. Gurwitsch patent 185
Cathode rays. By Dastre (D. R.) 231
——Absorption of, and molecular theories. By Lenard (D.) 1065
——alternating current wave indicator 54. By Harris J. Ryan (A. I. E. E. paper) 103
——Energy of. By Leininger (D.) 400
——Slow (D. R.) 730. By Lenard (D.) 731, 746
Cathode space, Dark. By G. C. Schmidt (D.) 852

Central Stations:
——American high-pressure hydro-electric plants. By Perkins (D. R.) 75
——Attempt to dynamite Colorado Springs plant 111
——auxiliary plant. By Davies (D.) 694
——British gas-driven (D.) *813
——Calculation of net-works. By Busset-Schiller (D. R.) 570, (D. R.) 773
——Census report in United States 209, 212, 248, 286, 367, 904, 968, 993, 1004
——Charging tariff. By Schwabach (D. R.) 149
——Combined railway, lighting and ice plant at Hampton, Va. (D.) 449
——Condensing plant for. By Summerfield (D.) 230
——Construction of. By Wikander (D.) 190
——Cost of power. By Saint-Martin (D. R.) 147
——Cuban hydraulic plant 577
——driven by wind power, Denmark. By Lacour (D.) 772
——economics. By W. E. Goldsborough and P. E. Fansler (A. I. E. E. paper) 102. Dawson (D.) 449
——Economy of fuel in. By McLaren (D.) 352
——Electric supply for small towns and villages. By Mountain (D. R.) 26
——failures, Origin and prevention. By Campbell Cormack (D.) 447
——of the future 422
——Gas-driven plant (D.) 649
——Gas engine plant in Germany *877
——Gas power for, 1034
——German gas engine. By F. C. Perkins *1002
——for gold mines. By Kirkland (D.) 350
——Grounded wire as protection against lightning. By R. D. Mershon (A. I. E. E. paper) 89, 130
——Heating and lighting plant, Princeton, N. J. 276
——Hydraulic plants in Mexico 858
——Hydraulic plant for Mexican mines 202
——Hydraulic plant in Southern California. By Henry and Le Conte (D. R.) 693
——Increasing the voltage in 110-volt station. By Wykander (D.) 814
——versus isolated plant supply. By R. S. Hale 383
——Lost and unaccounted for current. Westinghouse data 33
——Methods and means of extending business. By M. C. Hull (O. E. L. A. paper) 683
——Modernized district (D. R.) 851
——Moonlight tables Supp. Dec. 12.
——Overhead high-tension systems in suburban districts. By Geo. H. Lukins 1056
——Overhead pole line construction for 504. By A. H. Manwaring and J. T. Hutchings 510
——Physical equipment of American 1004
——practice. By Radcliffe (D. R.) 570, (D. R.) 613, (D. R.) 773
——Purchased power in factories. By E. W. Lloyd 512
——rates 829
——rates, American, 804
——rates in Berlin 263, 809
——rates, Newcastle, Eng. (D. R.) 352
——rates, Omaha 348
——record chart (D. R.) 553
——Rise of efficiency in. By Alton D. Adams 380
——Safeguards and regulations of overhead distributing systems. By W. C. L. Eglin *1054
——Single-phase motors as means of increasing earnings. By Layman (D.) 267
——Steam and electrically driven auxiliaries. By Taite and Downe (D.) 487
——Steam plant of Lausanne sub-station. By Herzog (D. R.) 1063
——Summer loads 467
——Supply, and methods of stimulating demand. By Panton (D. R.) 352
——their design and arrangements. By Matthews (D. R.) 26
——Three-wire distributions 708. By Chas. T. Mosman *718
——Use of automatic means for disconnecting disabled apparatus. By H. G. Scott (A. I. E. E. paper) 141

Central Stations:
——Aberdeen (D.) 26
——Anderlecht, Belgium (D. R.) 352
——Bexley, England (D.) 731
——Beznau, Switz. hydro-electric plant *763
——Boston lighting statistics 476
——Brussels (D. R.) 613
——Cambridge, Mass. *425
——Copenhagen. By Hentzen (D.) 886
——Coventry, England (D. R.) 773
——Crimmitzschau, Saxony 44
——Dalny, Russia 226
——Detroit Edison station prospects 275
——Dresden, Saxony *5
——Dublin (D.) 731, 745, *753
——Fitchburg *547, 759
——Guadalajara, Mexico 315
——Helena, Mont. 158
——Hudson, Mass. 893
——near Idaho Springs destroyed 226
——Isle of Thanet. By Pontifex (D.) 974
——Johannesburg, S. A. 582
——Kamloops, B. C. (D. R.) 352
——Kansas City (Kan.) Central Avenue. By H. S. Badger and G. E. Schreiber *371
——Livet, France (D.) 147
——Mt. Cenis, Italy, hydraulic plant 783
——Manchester, Eng. (D.) 148, (D.) 190, (D.) 230
——Montreal. By Alton D. Adams *904, *957, *1037
——for New England mills. By Dr. F. A. C. Perrine 644
——Nimshew, Cal., Doble hydraulic equipment in. 780
——Paris, Moulineaux station. By Allen (D.) 694
——Peterborough, Ont. hydraulic 276
——Poplar, London (D.) 75
——Pueblo, Colo. By Rusby (D. R.) 26
——Rand, British So. Africa (D.) 230
——Rochester Gas & Electric Co. *803
——Simonito (Mex.) water power plant (D.) 307
——Spain. By Blumenthal (D.) *931
——Spanish statistics 397
——St. Louis systems 630, *633
——Tamazula de Gordiana, Mexico *315
——Vizzola, Italy (D.) 25
——West Penn. Railway & Lighting Company (D.) 612
——Wimbledon, Eng. (D.) 450
Cerium, Electromotive behavior of oxides of. By Baur and Glaessner (D.) 150
Chicago Fuse & Wire Co. Fuse link and terminal *118
Chlorates and perchlorates, Electrolytic production of. Lederlin patent 101
Chlorides, alkali, Diaphragm process for electrolysis of. Fournier patent 185
——solutions, Production of copper, nickel and zinc from. By Koehler (D. R.) 888, (D.) 975
Chlorine and caustic alkali, Diaphragm process. Larihar patent *389
——smelting with electrolysis. By Swinburne (D.) 231, (D.) 353
Chromium, Double-carbide of tungsten and. By Moissan and Kouznetzou (D.) 490
——Production of, from chrome-iron ore. Suchy and Specketer method 841
Cincinnati Milling Machine Co. Index head for universal milling machines *38
Circuit breaker, General Electric *983
——Railway (D. R.) 851
——Reverse-current. By Leonard Wilson (A. I. E. E. paper) 70
——time constants 188
Citizens Industrial Association of America, Organization of 809
Clark Automatic Tel. S. B. Co. Telephone exchange at Hope Valley, R. I. *776
Clark, Thos. E., Wireless Tel. & Tel. Co. instruments. By Ackland Stiling *410. Wireless telegraphy *195
Clock, Electric: for deaf mutes 809
Clocks, Reisinger magnetic synchronous *312
Coal cutting, Electric. By Thomas-Davies (D.) 693
——cutting machines with three-phase motors (D. R.) 569
——handling machinery driven by electric motors. By Willey (D. R.) 649
——handling machinery, Hunt *519
——handling plant, Electric. By Richard Lamb *182
——mines, Electricity in (D.) 232
——mines, Pneumatic and electric locomotives in and about. By Ackerman (D.) 449
Coherers. By Hurmuzescu (D.) 149. Huth (D.) 490
——and anticoherers 248
——Combined. By Turpain (D.) 887
——mercury, Inventor of. By Guarini (D. R.) 115
——Single-contact. By Robinson (D.) 887
Coke measuring machine, Electric (D.) 228
——Removing silica from. Hall process *142
Colloidal solutions; Influence of electrodes on. By Hardy (D.) 1018
——Theory of. By Perrin (D.) 975
Collieries, Polyphase plant in (D. R.) 730
Colonial Sign Co. Porcelain letter signs *79
Colorado Electric Light, Power and Railway Association meeting 295, 748
Coulomb's Law. To whom do we owe the experiment showing that the charge resides on the outer surface of an electrified body. By Brother Potamain *295
Commutator brushes running under oil. By Osnos (D.) *729
——diagram. By Cramer (D.) 350
——Large. British Westinghouse Co. *196
——treatment. Ingalls patent 879
Compass indicator, Siemens and Halske (D.) *309
Compensation apparatus. By Franke (D.) *1019
——Recording mariner's. By Fabry (D.) 933

Condenser; Electrodynamic. By Seidener (D.) 1063

Kunzite, Discovery of 397

L

LABORATORY, ELECTROCHEMICAL, at Mass. Inst. of Technology 830
—— Mass. Institute of Technology and Univ. of Penn. (D. R.) 28
Lambert Schmidt Telephone Mfg. Co. Telephone system of Manhattan elevated railway *31
Lamp fixture (D. R.) 973
Lamps. (See Hefner, Incandescent, Nernst, Osmium, Vapor.)
Lang, Electric Co. Copper castings *409
Lathe, Hardinge bench, 983
——Heavy service, with electric drive (D.) 266
——Motor-driven chasing, (D.) 648
——Motor driven turret, (D.) 112
Lead cell, New type of electrolytic. By P. G. Salom (A. E. S. paper) 520
———peroxide, Manufacture of. Quedenfeldt patent 224
——refining, Electrolytic. By Betts (D.) 353
——salts by electrolysis. By Elbs and Nuebling (D.) 614
Leeds & Northrup Co. Resistance box *272
Letters for electric signs, Haller metal 155
Lighthouses, Electric. By Konig (D. R.) 772
——Electric, on Island of Heligoland, Germany, 168
——New Lizard 610
Lighting, Economy in public, 946
——Electric, in St. Peters 185
——in Europe 724
——exhibit at Contractors' Convention, Elblight *196
——Montmartre, Paris 1060
——in Rochester 714
——St. Lawrence River 770

Lighting, continued.
——Stage (D.) *1017
——Westminster Abbey by electricity 1015
Lightning arresters, General Electric *155
——Raymond patent 882
Lightning, Necessary practical safeguards against fire caused by. By Hands (D. R.) 491
——protection, Barbed wire for. By W. C. McEntee 848
——schedule. Measuring. By C. B. Russell 23
Liquids, Rotation of, in the magnetic field. By Urbasch (D.) 231. By Drude (D.) 489
Lithographic plates, Electrolytic preparation of. Strecker patent 442
Locomotives, Electric. British Westinghouse mining 198
——Dalton and Cole patents 882
——General Electric Co. 154. New B. & O. *310
——Hungary. By Brunn (D. R.) 570
——Recent. By Brunn (D.) 730
——Mine. By Egger (D.) 730
——and pneumatic, in and about coal mines. By Ackermann (D.) 449
——Shock from high-voltage (D. R.) 449
——Storage battery industrial. By F. L. Sessions (A. I. E. E. paper) 68; 90, 188
Luminometer, Burnett 187, *223

M

MACHINE TOOLS, Electrical drive for. By Robert Lozier 757
——Electrically driven in railroad shops. By C. H. Hines 473
——Measuring the power of. Walsh (D.) 569
——Motor-driven (D. R.) 488, (D. R.) 649
Machinery, Motor driven. By Frank B. Kleinhans *963
Madagascar, Electrical development in, 186
Magnet, Iron-clad for braking purposes. By Hellmond (D. R.) 614
——Permanent. By Ende (D. R.) 932
——for oculists, Carstarphen large. *273
——for use in separation of ores. Campbell patent 879
Magnetic coils, Winding of. By Zischeck (D.) 398
——field, Capacity of a vacuum tube in. By Lopuchin and Afanasieff (D.) 974
——field, Rotation of liquids under the action of. By Urbasch (D.) 231. Drude (D.) 489
——flux sifters 369
——forces, Measurement of. By Searle (D.) 27
——observations of the United States. By Bauer and Fleming (D. R.) 308
——rock in Alaska 610
——separation of ores. By Fabre (D.) 615
——units. By A. E. Kennelly (A. I. E. E. paper) 104
Magnetism. By Maurain (D. R.) 773
——of basalt. B Allan (D. R.) 1018
——Terrestrial. By Creak (D. R.) 650
——Terrestrial, and atmospheric electricity (D. R.) 570
Manetometer. By Chree (D.) 1020
Manganese, alloys, Magnetic. By Hensler (D.) 974
——works, Electrical, at Shawinigan Falls 221, 315
Manufacturing plant: Aluminum Works of Société Electrometallurgique Francais. By Perkins (D.) 772
——Astoria Steel Company 239
——Franco Tosi Works (D. R.) 115
——Schuckert Electric Works, Nuremberg, Germany. By S. N. Taylor *169
Marconi, Nobel prize for 728
Martin Grate Co. Rocking grate *118
Massachusetts public service legislation. By Alton D. Adams 429
Massachusetts Street Railway Association, new officers 647
Measurements on alternating-current circuits, Power. By Williamson (D. R.) 401
——of electrical conductivity, Apparatus for making direct reading. By Wm. Hoopes *815
——of electromagnetic radiation. By Huth (D.) *650
——of high potentials. By Voigt (D.) 532
——of lighting schedules. By C. B. Russell 23
——of magnetic forces. By Searle (D.) 27
——Potentiometer for thermocouple. By Lehfeldt (D. R.) 150
——of self induction. By Hohage (D.) *732
——and separation of the losses of asynchronous polyphase motors. By Peukert (D.) 487
——Three-phase power, 2. By Henry Pikler 188, 593. F. Hardie Jeannin *596. L. L. Perry, A. S. McAllister 770
——of velocities of rotation of alternators in parallel. By Sartori (D.) 613
——of wave length of electric oscillations. By Doenitz (D.) *933
Measuring instruments, Direct-current (D. R.) 615
——Transformers for. By Punga (D.) 774
Medicine, Electricity in 262
Mercury arc, Discontinuous. By Kallir (D.) *614
——break, Assymmetry of. By Ives (D.) 490
——cathode cell for electrolysis of brine. G. & G. W. Bell process *441
——cathode cell for electrolysis of sodium chloride. Baker and Burwell patent 224
——cathode process, Castner-Kellner patent 806
——extraction in the electric furnace. By Becker (D. R.) 650
——Radioactive vapor from. By Strull (D.) 231
——Oxidation of metals dissolved in. Baker and Burwell patent 524
——vapor, Conductivity of, 993. By Peter Cooper Hewitt *1000
Metal saw table, Hazleton & Donald "Acme" *38
Metals, Electrodeposition of. Johnson patents 766
——Polishing and plating of. By Hawkins (D. R.) 695
——Production and consumption of (D.) 775
——Quantitative electrolytic precipitation of. By Nissenson and Danneel (D. R.) 650
Metals, continued.
——Radioactivity of. By McLennan and Burton (D.) 532. Voller (D.) 649
——Reduction of, in the electric furnace. Egly patent 143. Tone patent *923. Danckwardt patent 1058
——"Selium" 277
——Testing methods for magnetic. By Fraichet (D.) 614
——Vaporization and boiling of. By Krafft (D. R.) 695
Metallic powders, Manufacture of (D. R.) 650
Metallurgy, Application of electric furnace in. By Keller (D.) 27
Meters. (See also Wattmeters)
——Influence of the shape of the current curve on induction. By Stern (D.) 309
——Phase adjustment for. Shallenberger patent 690
——Portable Electric line *778
——Starting coil for. Cox patent 73
——torque balance, General Electric portable *273
Metric system, 2. By F. A. Halsey 23. Geo. W. Colles 23, 111, 261. J. G. Vogel 264. F. A. Halsey & Geo. W. Colles 397
——and foreign trade 867. Geo. W. Colles 883
——in Great Britain 810
——in New Zealand 769
——Secretary Shaw on, 1014
Michrophone arrangement, Generation of wave currents by (D.) 191
Milan transportation exhibition for 1905 485
Milling machine, Becker-Brainard planer types *493
——"Cincinnati" index head for, *38
——Electrically-driven (D. R.) 694
——Motor-driven verticle (D. R.) 772
Milwaukee Electric Co. Motor driven printing press *36
Minerals, Electric Mineral Survey Company's method of locating *620
——Locating, electrically. Leonard patent 348
Mines and collieries, Electric motive power in. By Scott (D.) 448. Campbell Futers (D. R.) 488. Allen (D. R.) 813
——Electric appliances in European. By Guarini (D. R.) 488
——Electrically operated haulage plant (D.) 693
——Electrically operated pumping engine in Gneisenau mines, Germany *758
——hoist, Motor-driven (D. R.) 448
——locomotives. By Egger (D.) 730
——and Smelters, Alternating vs. direct current for. By Brown (D. R.) 649
——Storage batteries in. By Huber (D.) 398
Mining, Air compressors for, driven by electricity (D.) 730
——Electricity in. By Warren (D.) 1063
——plant, Electrically driven. By Hooghwinkel (D.) 530, (D.) 569
Missouri American Electric Co. Miller incandescent lamp *154
MOTORS:
——Alternating-current, Hunting of. By Hopkinson (D.) 447
——for alternating-current traction. Westinghouse patent 22
——Alternating-current for variable speed. Slichter paper. 18
——asynchronous, Compensation of. By Meyer (D.) 529
——asynchronous polyhpase, Exact diagram of. By Lehmann (D. R.) 487
——Brake horse-power and efficiency of a small. By J. L. Dickson *100
——Compensated series. By Latour (D.) *811. Osnos (D.) *849, (D. R.) 930. Blondel (D.) 973
——Couffinhel variable speed. By Courtier (D.) 772
——direct current, Emerson six-pole enclosed *618
——direct-current. Possible source for securing wide speed range in. By A. F. Hemingway 560
——direct-current, Speed regulation of. By Rogers (D. R.) 447. Broadbent (D.) 930
——and dynamos, Roth *195
——and dynamos, Siemens' *576
——Eddy current, and hysteresis. By Kann (D.) *352
——electric, Control of. Eastwood patent 929
——electric, Evolution of the railway 1050
——Electric, in iron works (D. R.) 307
——Electric, for small industries. By Loewitt (D. R.) 399
——Electric, for traction. By Neithammer (D. R.) 112
——equipment, Holtzer-Cabot, in N. Y. Telephone repair shop 620
——Fidelity Electric small multipolar, *1024
——Finzi railway 946
——generator sets, Test of Oerlikon for Stockholm central station *573
——generators versus rotary converters. By Hobart (D.) 886
Motors, Induction. By Hoxie (D. R.) 850
——Application of (D. R.) 649
——in Belleville Portland Cement Co. 82
——Care of. By Weeks (D. R.) 112
——with commutators. By Blondel (D. R.) 147. Latour (D.) 189
——Controlling. Girault patent 22
——Design for 1 hp self-starting, single-phase (D. R.) 447
——Design for a 2-hp, self-starting, single-phase (D. R.) 530
——Diagram. By Thomallen (D. R.) 1017
——General Electric *817
——Heyland. By Breslauer (D.) 884
——and new type of polyphase generator. By Eborall (D.) *227
——Single phase. Bradley patent 111
——S. K. C. *116
——Speed indicators for. Berg patents 262
——Starting *297
——Tandem-multiple control of, 305
Motors, continued.
——Vector diagram of the single-phase. By Sumee (D. R.) 612
Motors, Jones power *408
——Method of finding the efficiency of series. By Wilson (D.) *650
——Non-synchronous alternating-current. By Feldmann (D.) 112
——Operation of railway, in service. By C. Renshaw (A. I. E. E. paper) 70, 90
——polyphase, Measurement and separation of the losses of asynchronous. By Penkert (D.) 487
——Polyphase railway. Porter and Currier patent 691
——polyphase, Variable-speed. By Burkard (D.) *529
——Railway, with compound winding. By Hobart (D.) 148
——Railway, construction. Macloskie patent 882
——Repulsion. By Marius Latour (D. R.) 25
——Schuler-Ferranti single-phase alternating-current *777
——Self-starting, single-phase. Wagner patent decision 794
——Single-phase, as means of increasing station earnings. By Layman (D.) 267
——Single-phase repulsion. By Schueler (D.) 227. Cramp (D.) *648
——Single-phase traction. By Szasz (D.) 1016. (D. R.) 1016, 1033
——Single-phase, with commutator. By Blondel (D. R.) 1016
——single phase, Winter-Eichberg 1006. By Szasz (D.) 1016, 1060
——for standard machine tools, Bissell *410
——starter, automatic, German (D.) *1062
——starters and controlling panels. Ward Leonard *1022
——starters, Graphic calculation of. By Krause (D. R.) 731
——Testing railway. By Abey (D. R.) 815
——Thomson electrostatic 298
——Three-phase for coal-cutting machines (D. R.) 569
——Three-phase for electrical driving. By Eborall (D.) 569, (D.) 648, (D.) 693
——Traction with single-phase (D.) 399, 878
——Variable speed, and their relation to new shop methods. By Lozier (D.) 266
——Variable speed, Stow installation at Pittsburg *578
——Vector diagram of the compensated. By Heyland (D.) 265
Moving platforms in New York 563
Municipal Electricians, Atlantic City convention of, 326, 443
Municipal lighting: Chicago 912
——Cleveland, 432, 972, 1015
——Great Britain 727
——plants. By Walmsley (D.) 1066
——statistics, National Electric Light Association report 34
——Tallahassee, Fla., plant. By Poole (D.) 570
——Valley City, N. D., failure 527
Municipal government shortage in Chicago 1014
Municipal Ownership at Ashtabula 791, 794
——Charles Francis Adams on. 445
——in England 882
Municipal Signal Co. Telephone police signal system in Cleveland 455
Municipalism in Leipzig 4
Musso Duplex Typewriting Wireless Telegraphy Co., Incorporation of, 36

N

NATIONAL ARM, PIN AND BRACKET ASSOCIATION, Convention of, 891. Organization 273
National Bureau of Standards report 594, 506
National Electric Light Association, Photometric committee report *678, 708, *716
National Electrical Contractors' Association, Detroit convention 152
National Independent Telephone Assoc., Chicago convention exhibits 39
National Machine Tool Builders' Association, Meeting of, 847
National Steel Foundry Co., Developments at New Haven 235
Navy, Electrical engineering in 440
——Electricity in. 247, 759
——Emperor William's visit to U. S. battleship 7
——Steam turbines on torpedo boats 919
Nernst lamp 249. By F. W. Willcox 486
——glower, Radiation from. By Hartman (D.) 265
——in Newton Country Club, Mass. 202
——Photometric tests of, *678, 708. Correction 928
New York Electrical Society, Meeting of 690
New York Electrical Trades Society, Meeting of 928, 976
New York State Street Railway Association, Convention of, 594. Exhibits 665
Niagara Falls: Oldbury Chemical Company's plant extensions 445
——power notes 526
——power, Recent developments 62
——power for Toronto 304, (D.) 530
——State reservation and the falls 108
Nickel, copper and zinc from chloride solutions. By Koehler (D. R.) 888, (D.) 975
——copper sulphide, Treatment of. Browne patent 684. Baker and Burwell patent 685
——mines of Ontario 809
——plating. Edison patent 303
——plating tank, Efficiency of. By O. W. Brown (A. E. S. paper) 519
N-Rays, and radioactivity 1034
——Storage. By Blondlot (D.) 1064
Nitrate plants, Electrical equipment for Chilean 237
Nitric acid, Production of, by electric discharges. By Kowalski (D.) *231

Nitro compound, Reduction of. Buchner patent 303
Nitrogen of the air, Utilization of. By Frank (D. R.) 150
——Atmospheric fixation 928
——compounds, Production of. de Chalmot patent 685
Nobel prizes awarded 1015
Norden-Bittner Co. Electric hoists on Hamburg-American docks 456
Numbering machine for metals, Bates *780

O

OERLIKON COMPANY. Tests of Motor Generator sets for Stockholm central station *573
Ohio Electric Light Association, Meeting of, 665, 686. Exhibits 697
Ohio Independent Telephone Traffic Company, Meeting of directors, 1014
Ohio Society of Mechanical, Electrical and Steam Engineering, Meeting of 1008
Ohmmeter, Direct-registering. By Sack (D.) 491
Oil engines, Diesel 356
——for electrical use. By Walsh (D. R.) 612
Old-Time Telegraphers Association, Annual reunion 484. Officers 609
Omnibus, Trolley, German designs (D.) 488
——Lombard-Gerin system in France (D.) 569
Ons and ions, Theory of, 505. By R. R. Bowker 507
——Theory of. By C. J. Reed 611
Ores, Magnetic separation. By Fabre (D.) 615
——Treatment of nickel-copper sulphide. Browne patent 684. Baker and Burwell patent 685
Organic compounds, Electrolytic reduction of. Moest, Hertlein and Oppermann method. 766
Osmium lamps (D.) 730, (D.) 812, (D.) 851
Osmosis, Electrical. By Perrin (D.) 353
Ostwald, Wilhelm. Biography *431
Otis Elevator Co. Electric dumbwaiters 357
Outlet box, Floor. General Incandescent Arc Light Co. *1068
Ozone from oxygen. Blackmarr and Willford patents 842
——Water purification by. (D. R.) 27
Ozonizing apparatus. Otto patent *143, *879. Miller and Ashley patent 766

P

PAISTE, H. T., CO. Fuseless rosette *984
Paraffine, Conductivity of solid, under the influence of radium. By Becquerel (D.) 27
Patents, Annual report. 1004
——in Australia 424
Peat, Electrical production of 1010
——Removing water from (D.) 930, (D.) 974. By Schwerin (D.) 974
Pelton Water Wheel Co. Water wheels in Seattle municipal plant 655
Pennsylvania Street Railway Association, Convention of, 638
Perchlorates, Electrolytic formation of. By Oechsli (D.) 774
Philippines, Technical trade requirements in. 165. By Henry D. Wolfe 188
Photography: Electric blue-printing machine. By Jones (D. R.) 354
——by electric discharges (D. R.) 1065
——Transmission of photographs by telegraphy. By Korn (D.) 114
——Vacuum tube lighting in *720
Photometer, Matthews spherical candle-power. Willyoung & Gibson Co. *578
Pitchblende, Pictures taken by. 1061
Planer, Electrically-driven armor plate (D. R.) 189
——Hilles & Jones electrically driven plate *80
Platinum anodes, Electrolysis with smooth and platinized. By Foerster (D.) 571
——electrodes. By Perkin (D.) 353
——Production of in 1902 172
Plowing, Electric power in. By Guarini (D.) R.) 351
Pole industry, Electrical. W. C. Sterling & Son *619
Portable Electric Instrument Co. Portable line meter. *778
Potentials, Contact. By Hesehus (D.) 614
——Measuring electrode. By W. McA. Johnson (D. R.) 571
——Single. By Patten and Mott (D.) 571
Potentiometer, Lindeck (D.) *269
——for thermocouple measurements. By Lehfeldt (D. R.) 150
POWER DISTRIBUTION:
——American Bridge Company's plant 890
——Blackwell's Durham Tobacco Co. Westinghouse installation 117
——Canadian Copper Company 618
——Canadian Pacific Railway shops, Montreal 941
——Composite system of electrical transmission and. By Fred'k Bedell 17
——Davis Cotton Mill, Fall River. Sturtevant installation 80
——Dupont Powder Co., Bluefields, W. Va. 738
——Electric 924
——Factory plant (D.) 189
——in France 929
——Friend Paper & Tablet Company mills, Dayton, O. 783
——B. F. Goodrich Co., Akron, O. *760
——for Guanajuato mines 656
——The Industrial Works, Bay City, Mich. Westinghouse installation *355
——International Steam Pump Co.'s new plant 857
——Marble quaries Monterey, Mex. 986
——Marine Engine & Machine Co's shops *733
——in Mexican car-building plant 582
——New Jersey Steel Co. 858
——Philadelphia & Reading locomotive shops (D.) 648
——Portland Cement Company *1051
POWER DISTRIBUTION, continued.
——Portland Mill, Colorado Springs *492
——Prince Regent Theater, Munich (D.) 75
——in Queensland Railway shops (D.) 569
——in shirt factory (D. R.) 309
——Stephenson carshops (D. R.) 189
——Washburn-Crosby flour mill, Buffalo 239
Power presses, Motors for. By Fladd (D.) 1017
PRIMARY BATTERIES:
Primary batteries. By Hilderbrandt (D. R.) 888
——cell. Yai patent 1008
——Device for sealing and venting. Hutchinson patent 1008
——Electric Contract Co. 151
——E. M. F. or Clark and cadmium cells. By Prof. Carhart (A. I. E. E. paper) 104
——German patent 349
——Grouping of cells to obtain maximum current. By E. Dana Pierce *559. W. J. Humphreys *674. K. E. Guthe *955, 994
——patents. Csanyi, Richmond and Moffet 225. Drawbaugh, Halsey and Winters 257. Pectrozzi, Roberts and Strickland 766. Gladstone, Halsey, Schauli and Lowenstein 806. Tweedy 842. Keym, Kennedy and Winters 923. Ford 971
——test at St. Louis Exposition 469
——Zinc cup for. Apple patent 20
Printing press, Milwaukee electric motor driven *36
Protective devices for high-tension electrical systems. By Woodhouse (D.) 694
Pulley, Nelson loose. Wilmarth & Morman Co. *357
Pulsometer Engineering Co. Vacuum pump *199
Pumping, Electric, New Orleans drainage system. By Venable (D.) 147
——engine, in Gneisenau Mines, Germany *758
——for irrigation. By Kilburn Scott (D. R.) 694
——outfit for Japanese mines 239
——plant (D.) 772
——Sewage, at Sydney, New South Wales 384
Pumps, boiler, Steam vs. electrically driven 469
——Electric installation at Sydney, Aus. (D.) 487
——Electric, for water works. By Oelwein (D. R.) 851
——International centrifugal 1069
——Pulsometer vacuum *199
Punch and shear, Electrically driven (D. R.) 148
Pyrometer, Electric (D.) *1019

Q

QUARTERING MACHINE, Electrically driven (D.) 648
Queen & Co. Evershed testing set *494

R

RADIATION, Measurement of electro-magnetic. By Huth (D.) *650
——Secondary, from gases subject to X-rays. By Barkla (D.) 114
Radioactive substances, Recent developments in the study of. By Merritt (D. R.) 231
——wells 809
Radioactivity. By Soddy (D.) 852. Partridge and Bradbury (D. R.) 887. Allen (D. R.) 1065
——Induced thorium activity. By Von Lerch (D.) 1065
——Measurements of, 678. By Strutt (D.) *932
——of mercury vapor. By Strutt (D.) 231
——of metals. By McLennan and Burton (D.) 532. Voller (D.) 649
——N-rays and. 1034
——of ordinary materials. By Strutt (D.) 76
——Water. By Adams (D.) 1018
Radium. By Curie (D.) 149
——Actinum and American 948
——Mr. Boys on 514
——Cheaper 1014
——New light and. 1035
——in Colorado 609
——Conductivity of solid paraffine under the influence of. By Becquerel (D.) 27
——emanations (D.) 531
——Experiments on loss of weight of. By Dorn (D.) 191
——Helium from, 397. By Ramsay and Soddy (D.) 489, 902, 904
——Kelvin on 472
——notes from England 1042
——Phenomenon with. By Dorn (D.) 26
——rays and cancer 73
——rays, Method of showing penetrating powers of. By Black (D.) 489
——Spinthariscopic phenomena. By Becquerel (D.) 1018
——rays, Third species of. By Strutt (D.) 531
——salts, Spontaneous heat emissions of. (D.) 932
——Self electrification of. By Wien (D.) 570
——temperature. 302
——for testing gems 445
——Treatment of cancer by. (D.) 933
——Value of radiations in mineralogical determinations *481
Railroads: Electric traction on New York Central 865, *868, 1059
——Interstate Commerce Commission report 1060
RAILWAYS, ELECTRIC:
Railways, Electric. Bork (D.) 488
——Accidents in St. Louis 348
——Alternating-current traction 994
——Automatic block signals. By Scott (D.) 533.
——Automatic car control, New system of (D.) 229
——Automatic coupling (D. R.) 489
——Automatic signaling. By Cudworth (D.) 115. Rosenberg and Balliet. (D. R.) 533
——Ball bearings for motors. (D.) 931
——Block signal system (D.) 651
——Boosters. By Stephens (D. R.) 267
——Car acceleration test (D.) 267
——Census report 56, 92, 129, 135, 947
——Closing compartment doors by electricity. By Vitoux (D. R.) 489
Railways, continued.
——Comparison of third-rail and trolley. By J. A. Capp (A. I. M. E. mtg.) 680
——Conduit limitations, on West St., N. Y. 902. By E. E. Ries 972
——Development of high-speed traction 250
——Distribution system for switching yards (D.) 351
——Duplexing trains on single track. By Philip K. Stern *234
——Economy of traction without rails. By Hecker (D. R.) 931
——Effect of free transfers in Chicago 305
——Electric motor. By Neithammer (D. R.) 449
——Electric switch and signal system (D.) 775
——Electric traction on suburban roads (D.) 75
——Electricity on British steam lines (D.) 189
——Electricity in repair shops (D.) 530
——Electricity in tunnels of Denver, Northwestern & Pacific Railway 349
——Electro-hydraulics and street railway operation. By C. E. Parsons 645
——Electrolysis in return circuits 323
——Emergency car, Orange (D. R.) 267
——Equipment of the Mersey (D. R.) 75
——Evolution of the motor 324
——Expert testimony in damage cases 631
——Express service in Brooklyn 700
